Applied Futures Concepts & Trading

What is CAMP?

- CAMP (Chicago Advanced Market Practice) is a series of finance courses and events launched by Chicago Institute of Investment in 2012. CAMP courses and events are designed by practitioners for students, new investors and traders who need the more advanced, “hands-on” practitioner led workshops.

Who Takes the Course?

University students:

- Seeking a practitioner driven futures workshop.
- Looking for a career in trading.
- Seeking a certification to assist with job interviews with Chinese/U.S. Financial institutions.

Industry employees:

- Looking to further their “hands-on” experience in financial trading.

Course Overview

CAMP-Applied Futures Concepts & Trading is a certification program for students looking to succeed in the financial derivatives industry. This 12 hour workshop will enhance your practical knowledge in the following areas:

- ✓ Futures Contracts
- ✓ Market Participants, Process and Regulations
- ✓ Electronic Trading vs. Pit Trading
- ✓ The Mental Game
- ✓ Spread Trading
- ✓ History and Evolution of Click Trading
- ✓ Glossary of Terminology
- ✓ Essentials of Being a Good Trader

A certificate will be awarded to students who have successfully accomplished the program. Top-rated students will be recommended for job opportunities with financial institutions.
