## **2014 CFAA Trading Seminar**

CFAA is hosting an annual seminar on popular trading topics including future industry trends, disruptive new trading technology, principal trading and the recent high frequency trading controversy. Come and hear from three industry veterans about their insights and industry outlooks. This is a great opportunity for professionals working in the trading industry to learn and network, also for students who hope to set foot in the trading industry to gain knowledge and build connections.

### **Featured Speakers**

#### **First Speaker**

### **Carl Gilmore**

Managing Director, KCG Futures

### **Topic: Futures Market Function**

Mr. Gilmore will give us an overview of the futures market structure, how futures play a big role in a developed economy, and how market participants use futures to lessen their financial exposures.

## Second Speaker

### **Rick Lane**

CEO, Trading Technologies

#### **Topic: The Rise Visual Programming**

Mr. Lane will give us a speech about how visual programming has disrupted the trading industry and could make algorithmic traders of us all.

## Third Speaker

### **Chris Hehmeyer**

CEO, HTG Capital Partners

#### **Topic: Principle Trading 101**

Mr. Hehmeyer will give us a speech about principle trading (formerly known as proprietary trading): what the principle trading world is all about and how to get involved.

The seminar will end with an audience and panel Q&A session. Speakers are happy to answer any questions related to their speeches, or recent hot topics in the trading industry, such as high frequency trading and the recent regulatory controversy.
